

Dear Sirs,

I urge you to reject the NAB's petition 04-160, because it would be interfering with free market competition for one thing. It should not be the role of a federal agency to shut down a service because another group is feeling the crunch of a better alternative to their service. If the NAB wants the listeners back they should improve their broadcast formats not get the government to put the competition out of bussiness. The TV satellite companys did not resort to this type of move, why should the radio stations get this done for them. This is America and if I choose to subscribe to the XM radio, it should not be up to a government agency to tell me I can not.

Sincerely,

Jeff Costner
